Dearest President,

Praised be Jesus and Mary!

The undersigned would like to seek your approval for a study focused on systematically analyzing the current situation in the motorcycle parking area within our institution. This study holds significant importance as it is a major requirement for our System Analysis and Design subject. Our objective is to comprehensively assess the existing motorcycle parking infrastructure, identifying any challenges or inefficiencies currently faced by the school community.

With your kind approval, we aspire to develop an enhanced and automated system for the motorcycle parking area. We believe that the success of this study could serve as a crucial stepping stone for our future Capstone project, specifically focusing on the implementation of an Automated System for the motorcycle parking area.

Your support in granting approval for this study would not only fulfill our academic requirements but also pave the way for meaningful contributions to the college environment. We are excited about the potential of this endeavor and how it could provide us with essential insights and experience for our academic and professional growth. We eagerly anticipate the opportunity to discuss this proposal further in a meeting with you.

Thank you for considering our request, and we look forward to the prospect of working closely with you to enhance the motorcycle parking experience within our college or as a whole.

Sincerely,

Mark Hamill Salahuddin
Mike Elton Jhon Mangan
